

Mascaro Construction Company, L.P. is currently bidding **DGS Shippensburg University - Franklin Science Center Renovation that is due on 8/2/2024 at 2 PM. Duration of the project is 675 calendar days.**

**Brief Description:** Shippensburg University of Pennsylvania is a regional state-supported institution, founded in 1871 as the Shippensburg State Normal School in a single building (Old Main), and now has over 50 buildings, 2.4 million square feet, and 200 total acres. It is part of the State System of Higher Education of Pennsylvania, which is made up of 14 universities located in various geographic regions throughout the Commonwealth.

Franklin Science Center was constructed in 1970 and received a partial renovation in 2002 targeted towards HVAC improvements, electric, and classroom finishes. The building interior is very dated and inconsistent with contemporary pedagogy. This 114,000 GSF building supports Biology, Chemistry, Physics, and Psychology Departments, and encompasses teaching and research laboratories, offices, classrooms, circulation, and building support space. It also handles up to 4,602 student visits per week.

The renovation includes construction on the ground, first, second, and third floors, plus limited exterior work on the facades, grade, and the roof. The scope includes civil, landscape, structure, architecture, mechanical, electrical, plumbing, fire protection, and technology, with significant demolition and upgrades to the building systems and laboratories.

Mascaro Construction Company, L.P. encourages certified minority-owned, veteran-owned, and woman-owned subcontractors, diverse and/or small businesses, and supplier participation on this and all our projects. We are an Equal Opportunity Employer. Please contact Gretchen Mummert at (412) 863-4024 or [gummert@mascaroconstruction.com](mailto:gummert@mascaroconstruction.com), our Small Business Specialist for additional information.

If you wish to receive a copy of the project drawings, specifications, and other documentation please contact the appropriate team member listed below:
